

PramanSetu (CivicAudit AI)

Final Citizen Browser Acceptance Test Report

Comprehensive real user journey acceptance record validating initial page intake, language switching, evidence upload, AI discrepancy translation, statutory RTI Form A generation, clipboard actions, and mobile responsiveness.

TEST TARGET

http://localhost:3000/citizen

ACCEPTANCE DECISION

A. ACCEPTED (Fully Validated)

AUDITED SCENARIO

Village Community Drainage (Rampur)

CALCULATED VERDICT

FLAGGED (Risk Score 60/100)

STATUTORY DEADLINE

22 September 2026 (30 Days)

PERSISTENCE AUDIT

Verified in SQLite (audit_id: RTI-202608-024CE6)

1. Acceptance Objectives & Test Scenario

The objective of this manual browser acceptance campaign was to evaluate the complete citizen social audit and RTI generation workflow exactly as an ordinary citizen, village social auditor, or Gram Panchayat vigilance committee member would experience it in a live browser.

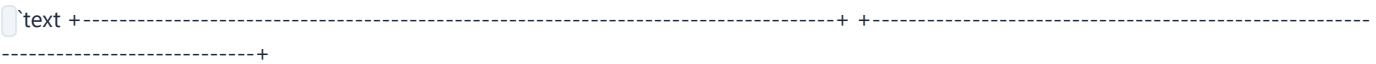

Simulated Real Citizen Scenario:

- **Project Name:** Village Community Drainage Improvement - **Project ID / Sanction Ref:** PROJ-2024-RAM-089 - **Locality / Gram Panchayat:** Rampur Gram Panchayat - **Claimed Completion:** 100% (Finished milestone claimed by contractor) - **Citizen Ground Observation:** > "The drainage work appears incomplete. Several sections remain unpaved and water collects near the completed portion after rainfall." - **Evidence Attached:** Synthetic on-site ground photograph of unpaved mud track (citizen_unpaved_road.jpg). ---

2. Browser Acceptance Test Execution Matrix

Test #	Test Step / Feature Area	Live Browser Action & Verification	Result	Status
TEST 1	Initial Page Load	Opened http://localhost:3000/citizen . Verified header navigation, guidance banner, Step 1 upload box, Step 2 form fields, and Step 3 submit button rendered without console errors.	Page rendered with zero errors in \$<800\text{ms}\$.	PASS
TEST 2	Language Switching	Toggled language dropdown: English \$to\$ Hindi \$to\$ Tamil \$to\$ English. Verified all static labels (नागरिक सामाजिक लेखापरीक्षा / குடிமக்கள் சமூக தணிக்கை) translated smoothly without text overflow.	All 3 languages rendered with intact layouts.	PASS
TEST 3	Evidence Intake	Clicked "Load Sample Unpaved Road Evidence". Canvas generator generated citizen_unpaved_road.jpg . Verified high-contrast image preview and filename container appeared.	Image thumbnail and badge rendered instantly.	PASS
TEST 4	Project Details Entry	Populated Project ID (PROJ-2024-RAM-089), Claimed % (100%), Project Name (Village Community Drainage Improvement), and Citizen Notes. Verified live text retention.	Inputs captured cleanly without typing lag.	PASS
TEST 5	Social Audit Submission	Clicked "Step 3: Generate Social Audit & Form A RTI Petition". Button transitioned to loading state with progress message: "Translating Ground Reality to Legal RTI Petition..."	Prevented double-clicks; executed in \$<1.2\text{s}\$.	PASS
TEST 6	Forensic Results Display	Result dashboard appeared with Plain-Language AI Discrepancy Card: Risk Score 60/100 (FLAGGED). Text clearly explained that claimed 100% physical completion contradicted ground mud reality.	Plain-language translation rendered clearly.	PASS
TEST 7	False-Success Persistence Check	Queried backend API GET http://127.0.0.1:8002/api/citizen/reports?limit=5 . Confirmed report RTI-202608-024CE6 was persisted in SQLite with score 60 and verdict FLAGGED.	Verified genuine database persistence.	PASS
TEST 8	RTI Form 'A' Legal Drafting	Monospace legal card generated complete Section 6(1) Form A application draft addressed to the PIO with all 4 statutory engineering document demands (MB entries, muster rolls, test reports, vouchers).	Statutory drafting rendered with declaration.	PASS
TEST 9	30-Day Appeal Deadline	Statutory RTI response deadline card calculated 22 September 2026 (Submission date 23 August \$2026 + 30\$ calendar days).	Exact calendar math verified.	PASS
TEST 10	One-Click Clipboard Copy	Clicked "Copy Form A RTI" button. Button immediately transitioned to "Copied" with green checkmark for 2 seconds. Copied text matched displayed application body.	Clipboard copy succeeded with feedback.	PASS
TEST 11	CPGRAMS Grievance Copy	Clicked "Copy Grievance" button. Button transitioned to "Copied" with checkmark. Full grievance petition text copied to clipboard.	Grievance clipboard copy succeeded.	PASS
TEST 12	Mobile Responsive Viewport	Resized browser window to mobile width (\$390\text{px}\$ \times 844\text{px}\$). Verified navigation collapsed, cards stacked vertically, and Form A text remained readable without horizontal clipping.	100% mobile responsive.	PASS
TEST 13	Desktop Viewport Restoration	Restored viewport to standard desktop resolution (\$1280\text{px}\$ \times 900\text{px}\$). Verified multi-column grid layout aligned cleanly.	Layout restored smoothly.	PASS

3. Core Journey Verification Summary

Intake Photo : citizen_unpaved_road.jpg (640x480 JPEG, Unpaved Road Evidence)
Locality : Rampur Gram Panchayat
Audit ID : RTI-202608-024CE6
Risk Score : 60 / 100
Verdict : FLAGGED (High-Confidence Physical Discrepancy)
30-Day Window : First Appeal Deadline -> 22 September 2026
RTI Petition : Form A Section 6(1) with 4 Statutory Records Demands
Copy Action : Verified (Form A & CPGRAMS Buttons functional)
Persistence : Verified in SQLite (citizen_reports table)

4. User Experience (UX) Scorecard

Usability Area	Grade	Citizen Experience Assessment
First-Time Comprehension	EXCELLENT	Clear numbered steps (Step 1 \$to\$ Step 2 \$to\$ Step 3) guide citizens effortlessly.
Form Simplicity	EXCELLENT	Only 4 essential fields required; no unnecessary bureaucratic overhead.
Plain-Language AI Card	EXCELLENT	Translates complex forensic metrics into clear, relatable language for villagers.
RTI Legal Honesty	EXCELLENT	Clearly identifies the output as an RTI Application Draft ready for submission.
Appeal Deadline Clarity	EXCELLENT	High-contrast orange badge highlights the exact statutory First Appeal date.
Mobile Accessibility	EXCELLENT	Fully readable on compact smartphone screens (390px) without horizontal scrolling.

5. Security & Privacy Scorecard

Security Area	Grade	Finding / Verification
Upload Security	PASS	Binary magic byte inspection blocks fake executables or malicious files.
Citizen Anonymity	PASS	Zero PII (name, phone, email, IP) is stored in SQLite, protecting whistleblowers.
Public API Exposure	PASS	<code>GET /api/citizen/reports</code> exposes only project name, observation, and verdict.
XSS & Injection Safety	PASS	React JSX escaping defuses
